DOOR SYSTEMS

We released to the market our experience in automatic lift doors beginning with our agreement of Fermator's Turkey distributorship since 1990 owing to the production of our own brand MB automatic doors which we started in 2009. Firstly, our MB doors are submitted to the production by aiming to manufacture the special series which weren't produced in the worldwide manufacturers' product range. Besides, it is also manufactured the mass production mechanism and operators. MB landing mechanisms and cabin operators, from 600 mm to 6000 mm, are produced fundamentally under four groups such as Standard, Thin, Extra Thin and Heavy Duty series.
